INTERNET USE

TIPS FOR PARENTS AND GUARDIANS

- Look for parents' guide that explains how the site works, and how it protects your child;

- Be near your child while they explore virtual worlds & internet & stay involved in his/her virtual activities;

- Talk to your Child, Get to know his/her online friends;

- Remind your Child that once he/she posts information online, they cannot take it back;

- Remind your child never to give out personal information;

- Limit your Child's Mobile Time;

- Set Rules about how your Child can use the Internet;

- Keep the Computer in the Common Room;

- Encourage your Child to speak to you if he/she sees or hears anything that upsets him/her online;

- Virtual Worlds provide opportunities for children to build educational and emotional skills, teach and encourage your Child to be responsible users;

- Seek Help from Others you Trust
