

## REQUEST FOR INVESTIGATION OF INTERFERENCE TO DOMESTIC SYSTEMS

Form INT02

### Instructions for completion

#### Before Seeking Advice

- You should have a suitable external television antenna that is in good condition and connected to your television receiver.
- You should check with your neighbors if they have experienced the same interference problem.

#### Power line Interference

- If the interference is seen to be speckled bands moving up and down the screen and sometimes accompanied by audible buzz, then you need to contact EPC and ask for their assistance.

#### Where to send this form

- Phone: (685) 30282
- Email: [spectech@regulator.gov.ws](mailto:spectech@regulator.gov.ws)

This form is available at [www.regulator.gov.ws](http://www.regulator.gov.ws)

#### Fees

A non-refundable fee may be charged to investigate interference to domestic systems.

**After your complaint is received, you will be contacted by phone to discuss the problem. If necessary, an investigation will be arranged. Inclusion of a video or audio recording of the interference will help.**
